Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

TUESDAY, MARCH 14, 1899.

ATTEND the citizen's meeting tomorrow evening at Armory Hall. Show your interest in the progress of the city.

SOME of those democratic papers who are doubting the sincerity of the Indianapolis Sentinel and expressing themselves in rather vehement terms might do well to read their files and contemplate the old saw about living in glass houses etc. Most of them have been following right after the Sentinel, ready to say "amen" whenever the state democratic organ spoke.

Boys who are averse to attending school and preparing themselves for the higher duties of citizenship when they become men will never be in a position to make the complaint that girls and young women are filling the best places formerly filled by men. Boys who neglect their education, or parents who permit their boys to neglect their school duties, are neglecting their own best interests. We repeat that there are too many boys out of school in Seymour and it is not the fault of the schools.

Coming Home.

The 161st Indiana have received notice that they will be mustered out in a few days. They will reach home probably early in April. Dr. W. E. Garish has received a letter from his brother, Dr. M. F. Garish, assistant regimental surgeon, stating that they would not remain in Cuba much longer.

The Unique College Boy.

The college boy is a unique institution. He is as interesting as unique. When he sings he is most pleasing. Put him in a glee club and his rollicking, jovial ways are very entertaining. Those persons who attended the concert given by the Franklin College Glee Club at the First Baptist church last evening, found the college student the best of men. Professor C. R. Parker is to be congratulated on the state of proficiency already attained by the company. The selections exhibit good variety; the grave is well commingled with the gay—but the genuine college song is most acceptable to the public ear. The audience trembled as they listened to the fearful warning, "The faculty will get you if you don't be good," and "Willie and his monkey," "The fable of the bee," and "The fable of the tack," conveyed their own terrible lessons. The piano and violin selections were appreciated.—Shelbyville Democrat.

At First Baptist church Friday evening.

C. E. Wood was at Brownstown today.

B. F. Scott went down to Brownstown today.

Henry Doerr made a business today Brownstown.

PLEASANT GROVE.

Little John Goss has the grip.

John Hays was in Illinois a part of last week.

The storm Saturday night was very severe here.

Attendance at Sunday school 49, collection 23 cents.

Dixon M. Hays was at Houston last Friday on business.

I. N. Persinger has the banner field of wheat in this vicinity.

Easter services are to be conducted by the Epworth League.

Miss Daisy Hays is arranging to take a course of music lessons.

Jacob Kearns, of Newport, Ky., visited relatives here last week.

Charley Hays is attending business college in Wheeling, West Virginia.

Prof. J. W. Stillwell, one of our old teachers, is now a resident of Elwood.

The outlook for a copious crop of wheat and clover is very flattering.

Miss Lizzie Tobroke, of Freetown visited in D. M. Hays' family Friday.

Charley Enochs, of Honeytown, moved on the Persinger farm last week.

Orrell Wheeler, the obliging huckster, enjoyed a nice trade last Thursday.

A jollification was had at the residence of John Kernan the evening before he moved.

John McNiece and wife have adjusted their differences and now live together.

Miller & Hays, of the Ewing livery stable, purchased a fine lot of hay of Henry Lucas last week.

While at Houston last Friday the writer was cleverly entertained by Richard Pruitt and family.

Harvey Lucas has his part of the gravel road in fine condition. He does the work at the right time.

Richard McNiece is hale and hearty at the ripe age of 80 and is one of our wealthy and successful farmers.

The people are ready to vote on the proposed gravel roads as soon as the commissioners will give them a chance.

Our old school building has almost collapsed. It was built in 1860 and is to be repaired by a new one the coming summer.

Eli W. Miller, of Ewing, was 55 the 8th inst. when his family prepared a dinner which was enjoyed by a host of relatives and friends.

It is reported that Dixon M. Hays will head a movement for a postoffice at Pleasant Grove. This would be a great convenience to those who now drive five and eight miles for their mail.

Rev. J. L. Shroyer and Frank Reynolds have resolved that an old debt on the Honeytown M. E. church shall be lifted and we are glad to say the amount was almost all subscribed last week.

Correspondence Can Now Begin.

J. K. Tindler a few days ago found a bottle on Indian creek, in which was the following telegram.

March 5, 1897.

On train No. 2 P. C. C. & St. L. Behind a washout.

The lady that finds this note will be my wife when we meet. Write

J. W. MINEA

No. 2 Sackem St.

Pittsburg, Pa.
The Pittsburg gentleman has waited long for the correspondence to begin but since the bottled message was found by a man and given to the public, he will doubtless have numerous letters in short order and will have a chance to make a selection.

Convalescing

is more or less a very slow process, according to the severity of the sickness. Vitality, when at a low ebb, works at a great disadvantage, and more time is required to regain the lost strength and power.

Pabst Malt Extract
The Best Tonic

produces marvelous results in such cases. The richness of the malt gives life to the blood and the hop principle gives tone to the stomach—creating both a desire for food and the ability to digest it.

A Cure for Constipation.

It was ruining my health, my comfort and my complexion, and I am glad to say that Celery King has restored all three, and this after trying many other medicines that were supposed to be good, but which were of no value whatever. I would like to tell every suffering woman what Celery King has done for me.—Sylvia Gould, Medina, Ohio.

Celery King Cures diseases of the Nerves, Stomach, Liver and Kidneys. Sold by druggists, 25 and 50c.

Mrs. F. H. Clark is able to be up part of the time.

Mrs. Ed Stout went down to Crothersville on the forenoon train to visit her parents.

Tip S. Bligh sailed from Liverpool for New York Saturday and will reach home before the middle of next week.

Made a New Man of Him.

BRYAN, Ohio, Jan. 13, 1897.

Gentlemen:—For years I had been suffering from indigestion. Had a poor appetite and could not eat anything containing grease and had constantly had a worn out feeling. After using three 50c bottles of Dr. Caldwell's Syrup Pepsin I am now able to eat anything my appetite craves and can say it has made a new man of me.

Little David McCrady Dead.

Cyrus E. McCrady has received a telegram announcing the death of his nephew, David, the eleven-year-old son of Mr. and Mrs. W. W. McCrady, of Lemore, California. The little fellow was here with his parents some time ago.

Lung Irritation

Is the forerunner to consumption. Dr. Bell's Pine-Tree-Honey will cure it, and give much strength to the lungs that a cough or cold will not settle their twenty-five cents at all good druggist.

I have been afflicted with Rheumatism for fourteen years and nothing seemed to give relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—JOSH EDGAR, Germantown Cal. For sale by C. W. Milhouse.

GERMAN MILITARY SERVICE.

A Curious Method by Which It May Be Avoided.

Anybody can emigrate from Germany before he is 17 years old without running the risk, in case he should return, of being forced to join the army, but he will be allowed to remain only nine months in Germany. If he stays longer he becomes again a German citizen and must do military service. If he leaves when he has been a little less than nine months in the country and stays away for two or three weeks he can return without running any danger and can stay another nine months. If he does this every nine months he can live as long as he likes in Germany.

As soon as a man is 17 years old he cannot leave Germany without serving in the army. He can, however, get permission to leave the country until he is 20 years old if somebody is willing to give bond that he will return and serve his term.

In case a man forfeits his bond he cannot return to his fatherland before he is 45 years old, as he would be promptly arrested and sentenced to serve a longer term than the original one. After a man is 45 years old he can go back to Germany without being punished and live there as long as he likes.

In case a deserter is caught in Germany before he is 45 years old he is sentenced to two or three years' imprisonment in a fortress and all his personal property is confiscated.—New York Herald.

Proof Positive.

His Honor—What's the charge, officer? Drunk?

Officer—No, sir—crazy.

His Honor—How do you know?

Officer—Well, sir, he is a proprietor of a daily paper, and I heard him tell a man that the paper probably had the smallest circulation in the city, and so—

His Honor—The padded cell—quick!—Harlem Life.

Legal Repartee.

"Gentlemen of the jury," said the pompous lawyer, assuming his most imposing mien. "I once sat upon the judge's bench in Iowa."

"Where was the judge?" quickly inquired the opposing attorney, and the pompous gentleman found the thread of his argument hopelessly entangled.—Detroit Free Press.

REMOSE.

Red lips that dumbly quiver for his kiss
And now but fondly touch his graveyard stone—
Ah, lips be loved of old, remember this,
He had not died if he had only known!
—Arthur J. Stringer in Harper's Magazine.

A STROKE OF GENIUS.

It Elicited the Unbounded Admiration of the Farmer.

Only a few summers ago, among the many others that visited the wild region adorned by one of Michigan's inland lakes, was an artist. He had a wealth of scenery from which to select and chose a picturesque view with a hill of rocks and jack pines as a background. The owner of the property transferred to canvas did not think much of the enterprise or of the man who would dawdle away his time in such an undertaking, but the artist paid the summer rates without a murmur and never entered any complaints against the accommodations. The next season the painter was again among the guests.

"How did that there picture of yours come out, anyhow?" asked the curious landlord.

"Oh, fairly well. You know that I have my name to make yet. I sold it for \$1,000."

"No," exclaimed the farmer excitedly, "not \$1,000. You're chaffin' me."

"Not a bit of it," laughed the artist, "I got \$1,000 for that little view before there was a frame on it."

"Shake, stranger. I allus thought I was purty slick on a dicker, but I'll be doggone if you don't take the prize. You skinned that feller slick and clean."

"How so?" indignantly, for his pride was touched.

"Oh, don't play innocent with me. It won't go no further. But you done him brown. A thousand for that spot where you couldn't raise a bean to the acre! If the critter that bought that picture had seen me, I'd a sold him the hull durn farm for \$275."—Detroit Free Press.

In the Tap Root of an Oak.

I remember a curious incident connected with the tap root of an oak. This oak, a good tree of perhaps 200 years' growth, was being felled at Bradenham wood when the woodmen called attention to something peculiar on the tap root. On clearing this of soil we found that the object was a horse-shoe of ancient make. Obviously in the beginning an acorn must have fallen into the hollow of this cast shoe, and as it grew through the slow generations the root filled up the circle, carrying it down into the earth in the process of its increase till at length we found wood and iron thus strangely wedded. That tap root with the shoe about it is now or used to be a paper-weight in the vestibule of Bradenham Hall—Rider Haggard in Longman's Magazine.

Pure Water a Poison.

By "chemically pure water" we usually understand perfectly fresh, distilled water. Distilled water is a dangerous protoplasmic poison. The same poisonous effects must occur whenever distilled water is drunk. The sense of taste is the first to protest against the use of this substance. A mouthful of distilled water, taken by inadvertence, will be spit out regularly. The local poisonous effect of distilled water makes itself known by all the symptoms of a catarrh of the stomach on a small scale. The harmfulness of the process, so much resorted to today, of washing out the stomach with distilled water is so well known.—National Druggist.

Official Lampposts.

The placing of lampposts in front of the houses of the chief magistrates of towns is an ancient custom. We find in Heywood's "English Traveler" that posts were so placed in front of sheriffs' houses. Reginald says

What brave carved posts! Who knows but here in time, sir, you may keep your shrievalty And I be one of the sheriffs!

From sheriffs, the practice extended to the houses of mayors and provosts. It has been suggested, with some probability, that the posts were at first intended for the affixing of proclamations which it was the duty of the sheriffs to publish.

A Forgetful Spouse.

Mrs. Bilkins—I never saw such a forgetful man in my life as you are. The clock has stopped again.

Mr. Bilkins—That's because you forgot to wind it.

Mrs. Bilkins—You know very well, Mr. Bilkins, that I told you to remind me to wind it, and you forgot about it.—New York Weekly.

Her Mistake.

"How did it happen that Miss Singleton refused to marry the young clergyman?"

"Why, when he proposed to her she, being a little deaf, thought he was asking her to subscribe to the organ fund. So she told him she had promised her money to some other mission."—Harper's Bazar.

Proud of His Descent.

O'Brien—And so Phelim is proud of his descent, is he?

McTurk—Yes, he is terribly stuck up about it.

O'Brien—Well, begorra, O'iv'e a bit of a descent meself to boast about. O'iv'e descended four stories wanst whin the ladder broke and niver shpilled a brick.—Answers.

Not Yet.

"Are you related to each other?" inquired the probate judge at Oklahoma City of a German bridal couple bearing the same name. And the groom replied: "Nein. Das is vat's de matter. Ve wants to be alretty."—Kansas City Journal.

Nerves on Edge

Could not Concentrate my Thoughts; Could not Sleep an Hour at a Time Without Waking; Was Almost Distracted. After Years of Suffering I was Cured by

Dr. Miles' Nervine.

When the nervous system is so run down and worn out that sleep refuses to come to its relief, the life forces are rapidly consumed and both physical and mental faculties soon lose all power of recuperation. Nerve force is necessary to run the human machine and must be supplied from some source as it breaks down. Dr. Miles' Restorative Nervine nourishes those organs that are most in want. It soothes the irritated nerves, brings rest and refreshing sleep to the tired brain, and cures nervous disorders of every kind. The following letter will be interesting reading for those who are suffering from nervous troubles.

"For a number of years I suffered severely from nervous prostration, I could not concentrate my thoughts, and was unable to confine myself to any one thing. For years I could not direct the affairs of my own household, and could have no care whatever. There was not a night in all that time that I slept over one hour without waking; and when I would awake my nerves would be so un-

strung and feel as if they were on edge. My stomach was very weak, and I suffered greatly from severe headaches. We spent several hundred dollars with doctors and for various proprietary medicines, but it was of no use. After having been taken to Chicago, and having been treated by some eminent specialist, from whom I received no benefit whatever, I became almost distracted. I saw an advertisement of Dr. Miles' Restorative Nervine, and I procured a bottle and used it according to directions. Its effect on me was marvelous. The very first night I slept soundly, and awoke in the morning feeling rested. I continued taking the medicine until my health was fully recovered, and although I am past seventy-seven years of age I am doing my own work. The sleepless nights, the worry and tired feeling are now a thing of the past and I feel many years younger.

MRS. W. A. THOMPSON,
Columbus, Wis.
Read what Capt. J. W. Wood, of

steamer "Governor Safford," whose home is in Brunswick, Ga., says of this great medicine: "It affords me great pleasure to recommend Dr. Miles' Nervine, because I have tested it and know its worth. Overwork and loss of sleep brought on attacks of extreme nervousness and irritability which rendered me unfit to attend to business, and from which I could find no relief. A friend recommended me to try Dr. Miles' Nervine, and I began using it at once. I obtained benefit from the first bottle and in a few weeks I was restored to my usual good health."

Sample Treatment Free.

A trial package of Dr. Miles' favorite treatment for the grip, consisting of Dr. Miles' Restorative Nervine, Dr. Miles' Anti Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting the samples and mentioning the name of this paper. Address Dr. Miles Medical Co., Elkhart, Ind.

An Important Question.

If your friends or neighbors are suffering from coughs, colds, sore throat, or any throat or lung disease (including consumption), ask them if they have ever used Otto's Cure. This famous German remedy is having a large sale here and is performing some wonderful cures of throat and lung diseases. No matter what other medicines have failed to do, try Otto's Cure. Large sizes 25c and 50c. Sold by all druggists.

Drying preparations simply develop dry catarrh; they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents, large for 50 cents. All druggists keep it. Ely Brothers, 56 Warren Street, New York.

TAKING A VACATION

President McKinley Leaves For Thomasville, Ga., For a Rest.

WILL REMAIN TWO WEEKS

The Trip Made In a Magnificent Private Pullman Observation Car—Mrs. McKinley, Vice President and Mrs. Hobart and Senator and Mrs. Hanna Among the Presidential Party.

Washington, March 14.—President and Mrs. McKinley and a party of friends left the city last night for a vacation of two weeks at Thomasville, Ga., where the train is scheduled to arrive this afternoon. The trip is made via the Atlantic Coast line and the Plant system aboard a splendid train of Pullman cars, perfect in equipment with every provision for the comfort and safety of the party. The president occupied the magnificent private Pullman observation car Iolanthe at the rear of the special train, the remainder of which was made up of the compartment car Horatio, the sleeper Clematis, the dining car Aberlin and the combination smoking and baggage car Cassius—all handsomely fitted out for the accommodation of the distinguished travelers.

Ten minutes before train time the President and Mrs. McKinley reached the station, where a number of people had assembled, and went aboard the train and greeted those who accompanied them on the trip. These included Vice President and Mrs. Hobart and Master Hobart, Senator and Mrs. Hanna, Miss Hanna and Miss Phelps, Dr. J. N. Rixey, George B. Cortelyou, assistant secretary to the executive clerk, Secretary Alger, Postmaster General Smith, Secretary to the President Porter, General Corbin and others were at the station to bid the party farewell.

ALL VOLUNTEERS

In Cuba Except Engineers and Immunes to Be Brought Home.

Washington, March 14.—The war department has determined to muster out and bring home all the volunteers in Cuba with the exception of the volunteer engineers and immunes. The necessity for immediate action has been brought to the attention of the war department on account of the quarantine regulations against Cuba, which go into effect about May 1 and which are especially strict at all southern ports.

When the troops are brought to this country they must, under the law, be mustered out in United States camps and they, no doubt, will be brought to camps nearest their homes. It is desired also to have them brought to places where fumigating can be done and it is possible that troops from northern states may be brought to Montauk and camp Wilcox again be established although the present intention is to have all northern troops sent to camp Meade in Pennsylvania.

The troops of North Carolina, South Carolina, Louisiana and Georgia will probably be brought to Savannah, the Texas troops to Galveston and the Tennessee, Kentucky and Virginia troops to Old Point Comfort, Va.

ONE THOUSAND MARINES

Navy Department Will Send Them to Cavite.

Washington, March 14.—It is said to be the intention of the navy department to send 1,000 marines to Cavite to take care of the navy's interests there. It is the purpose to send a colonel in command of these men, although until the full regiment is on the scene the marines will remain under the command of Major.

Sympathetic Husbands.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was \$100 per bottle, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

"Mother's Friend" is sold by druggists, or expressed on receipt of one dollar.

Valuable book, "Before Baby is Born," mailed free on application.

The work of repairing the three Spanish gunboats raised in Manila bay is reported to be progressing rapidly at Hong-Kong under the direction of Constructor Capts. and Assistant Constructor Hobson. The vessels are said to be in excellent condition as to machinery, and even before they went into drydock to be repaired the Isla de Luzon and the Isla de Cuba made 12 knots under their own steam and the Don Juan de Austria was only about a knot behind.

For Military Purposes.

Washington, March 14.—After mature consideration of the subject the war department has decided to take advantage of the provision of the act by which Hawaii was annexed to the United States, transferring the public lands to the government, to acquire such tracts in the islands as may be necessary for military purposes. To this end an officer or officers will be sent by next steamer to Honolulu with proper authorization, and will begin the work by taking possession in the name of the war department of a considerable tract near the capital.

Will Organize Provisional Regiments.

Washington, March 14.—It is expected that General Otis will be authorized to organize three or four regiments of the provisional army out of the volunteers from the various states now at Manila when the time comes for mustering out these volunteers. At present the volunteers, it is stated at the war department, do not want to come home, having the American determination not to "retreat while under fire."

SAMOAN TROUBLES

Satisfactory Understanding Between the Three Powers.

Washington, March 14.—After numerous conferences and the exchange of notes between Secretary Hay, the British ambassador and the German ambassador, a satisfactory understanding has been reached between the three powers interested in Samoa as to the conditions there. This seeks to open a

new account in the affairs of Samoa, and to obliterate the troubles among officials which have recently occurred there. To this end Dr. Wilhelm Solf, who has been nominated by Germany as president of the municipal council at Apia, to succeed Dr. Raffael will be recognized by the British and United States authorities.

Already this recognition is assured, but it remains for the consuls at Apia to carry it into formal effect, in accordance with the letter of the treaty of Berlin. In order that this may pave the way to an agreeable and harmonious adjustment, Dr. Solf will go to London and make himself acquainted with the authorities there and afterward come to Washington and become acquainted with our officials, so that there may be mutual understandings. Dr. Solf will reach Washington the latter part of this month and will be presented by Dr. von Holleben, the German ambassador. He will then proceed to Samoa, reaching there in May.

PRIZE CASES.

The Solicitor General Asks For Their Advancement.

Washington, March 14.—In the supreme court a motion was made yesterday by the solicitor general to advance the hearing in the prize cases which have been appealed to the court. The cases involve six vessels captured during the Spanish war, whose owners deny the right of seizure to the United States, the vessels being the Buena Ventura, the Pedro, the Guido, the Newfoundland, the Adula and the Olinda Rodriguez.

The first three of the vessels mentioned were the property of Spanish subjects, the Rodriguez of Frenchmen and the Newfoundland and Adula of Englishmen. They were captured under various circumstances, rendering them probably subject to the prize regulations and yet leaving some room in each case for doubt. The vessels range in value from \$12,000 to \$300,000.

Yesterday he returned and renewed the threats and was shot by Mr. Terrell, who, after the shooting, came here and surrendered to the officers.

IRISHMAN'S LUCK

Couple Made Happy by a \$10,000 Inheritance.

Chesterfield, Ind., March 14.—James McCarthy came to America from Ireland several years ago. The ship on which he sailed was wrecked and he lost \$1,600, which represented all of his earnings. He left a sweetheart in the old country, who was to be his wife on securing a home in America. His financial loss caused him to postpone the wedding. Last summer McCarthy, penniless, applied to J. M. Donnelly for work, which was given him, and last September he was made overseer of Mr. Donnelly's 320-acre farm, a mile north of this place. In the meantime McCarthy's sweetheart came to this country and settled at Goshen, Ind. Recently he received a letter from her stating that she had just come into possession by inheritance of \$10,000 worth of property, and she was willing to become his wife, whereupon he immediately resigned and went to Goshen to claim her.

At a wedding of an eloping couple at Calvert's house, the wife and mother-in-law laughed because the bride and groom joined the wrong hands.

When the guests were gone Calvert told his wife and her mother that they had insulted the preacher, whereupon he drew a revolver and shot at them. They were not hurt and Calvert escaped.

CHRISTIAN ENDEAVOR

International Convention to Be Held in Detroit in July.

Detroit, March 14.—The press committee for the 18th international convention of Christian Endeavor, to be held in this city July 5 to 10 has begun work by issuing a letter setting forth the attractions of Detroit in general and of the coming convention in particular. The letter says:

"Never was there brighter promise of great things for the Endeavor hosts and never has a city felt a gladder thrill over certainty of blessings to come. The convention will be characterized by two new features, viz: The employment of a higher grade of music than formerly and lectures upon sociological questions and other present day problems. The latter feature is designed, however, to supplement, not supplant, the spiritual element which has always been characteristic of C. E. conventions.

"Crimson and white are the colors in which Detroit will array herself for the great convention. The houses of the city will be opened wide and the cordiality will find expression in every face and voice and manner. You will have a one fare railroad rate; you can come by rail from anywhere and by water from almost anywhere. Your entertainment will be at a reasonable cost, and you can visit the famous northern Michigan resorts after the convention. You need the physical invigoration of the trip to Detroit and the mental and spiritual inspiration that comes from contact with the wholesome life of the Endeavor host. But most of all, we want you."

Died of Grief.

Cobden, Ills., March 14.—Elijah Hartline, a wealthy farmer living two miles south of here, is dead, aged 70. His death was principally caused by grief over a \$200 deposit in the bank of Cobden, which made an assignment March 1. He also had \$15,000 or \$20,000 in gold, the fruits of his weary years of toil, buried on his farm. His relatives do not know its place of concealment. All efforts to get him to talk or give a clue to its whereabouts proved a failure.

ROYAL BAKING POWDER CO., NEW YORK.

GENERAL RIOS

Protests to His Government Against One of General Otis' Orders.

Madrid, March 14.—General Rios, the Spanish commander in the Philippines, in an official dispatch, acquainting the government with the fact that Major General Otis has stopped the negotiations for the release of the Spanish prisoners in the hands of the rebels, says: "I protest in the name of humanity and believe the time has arrived to appeal through the consuls to the good offices of the powers."

The dispatch says also: "I am told that the Filipinos are at war with the Americans and that the prisoners cannot be ransomed for money as that would improve the position of the insurgents. In view of my situation between the Americans and the Filipinos I await the orders of the government."

A copy of the dispatch was sent immediately to Senor Silveira, the premier, who had a long conference with General Polavieja, minister of war. Both admit the gravity of the situation, and the dispatch will be submitted to the cabinet council today.

The government is perplexed at seeing no clear solution of the difficulty. At the ministry of war last evening it was said that no reply would be sent to General Rios, pending the cabinet's decision. The plan of negotiating with Aguinaldo direct, without reference to Washington, has been abandoned, however, and Senor Silveira, in his capacity of minister of foreign affairs, will probably not await the decision of the cabinet regarding the dispatch before communicating with the American government.

SCOTT'S BATTERY

Engages the Enemy Followed by the Twenty-Second Regiment.

Manila, March 14.—Hearing the insurgents' bugles sounding this morning, Scott's battery dropped three sharp shells into the woods on the left of the Pasig church. No reply was made, and the Twenty-second regiment regular infantry advanced until they encountered a number of volleys. This fire was returned with interest.

The line then wheeled toward Pateros in the following order: The Oregon volunteers, the Twentieth regulars, the Washington volunteers, a cavalry detachment, the Twenty-second regulars and reserve artillery. The troops followed the roads, while the gunboats (Este and La Guna de Bay assisted in suppressing the fire on the left flank. Three rebel canoes were captured on the river.

The rebel sharpshooters at Calocoon continue active, but no casualties are reported.

BANK OF ILLINOIS

Controller Dawes Orders a 100 Per Cent Assessment of Shareholders.

Chicago, March 14.—A special to The Times-Herald from Washington says: Controller Dawes, after an expert examination of the condition of the National Bank of Illinois and appraisal of its assets, has ordered an assessment of 100 per cent against all its shareholders. As the outstanding shares represent face value of \$1,000,000, this assessment is expected to bring that amount into the bank's assets, available for liquidating its indebtedness.

Controller Dawes has also directed Receiver McNulta to make an investigation with a view to bringing action for damages against the directors and officers of the bank, who by bad management, were responsible for its failure.

Failed to Elect.

Dover, Del., March 14.—After one of the most exciting scenes that has ever been witnessed in the general assembly of this state the session of 1899 ended yesterday afternoon without electing a United States senator to succeed Hon. George Gray. It is the first time in the history of the state.

BRIEF DISPATCHES.

ATTEND the citizen's meeting tomorrow evening at Armory Hall. Show your interest in the progress of the city.

SOME of those democratic papers who are doubting the sincerity of the Indianapolis Sentinel and expressing themselves in rather vehement terms might do well to read their files and contemplate the old saw about living in glass houses etc. Most of them have been following right after the Sentinel, ready to say "amen" whenever the state democratic organ spoke.

Boys who are averse to attending school and preparing themselves for the higher duties of citizenship when they become men will never be in a position to make the complaint that girls and young women are filling the best places formerly filled by men. Boys who neglect their education, or parents who permit their boys to neglect their school duties, are neglecting their own best interests. We repeat that there are too many boys out of school in Seymour and it is not the fault of the schools.

Coming Home.

The 161st Indiana have received notice that they will be mustered out in a few days. They will reach home probably early in April. Dr. W. E. Garish has received a letter from his brother, Dr. M. F. Garish, assistant regimental surgeon, stating that they would not remain in Cuba much longer.

The Unique College Boy.

The college boy is a unique institution. He is as interesting as unique. When he sings he is most pleasing. Put him in a glee club and his rollicking, jovial ways are very entertaining. Those persons who attended the concert given by the Franklin College Glee Club at the First Baptist church last evening, found the college student the best of men. Professor C. R. Parker is to be congratulated on the state of proficiency already attained by the company. The selections exhibit good variety; the grave is well commingled with the gay—but the genuine college song is most acceptable to the public ear. The audience trembled as they listened to the fearful warning, "The faculty will get you if you don't be good," and "Willie and his monkey," "The fable of the bee," and "The fable of the tack," conveyed their own terrible lessons. The piano and violin selections were appreciated.—Shelbyville Democrat.

At First Baptist church Friday evening.

C. E. Wood was at Brownstown today.

B. F. Scott went down to Brownstown today.

Henry Doerr made a business today Brownstown.

Mrs. Jerusha Linderman, of Scott county, came up today to see friends.

George Vehlsage went today to Mooneytown to look over his big farm.

J. H. Matlock and wife returned today to Indianapolis from a visit to Brownstown friends.

Prof. Louis A. Ackerman, of near Freetown, favored the REPUBLICAN office with a pleasant business call today.

PLEASANT GROVE.

Little John Goss has the grip.

John Hays was in Illinois a part of last week.

The storm Saturday night was very severe here.

Attendance at Sunday school 49; collection 23 cents.

Dixon M. Hays was at Houston last Friday on business.

I. N. Persinger has the banner field of wheat in this vicinity.

Easter services are to be conducted by the Epworth League.

Miss Daisy Hays is arranging to take a course of music lessons.

Jacob Kearns, of Newport, Ky., visited relatives here last week.

Charley Hays is attending business college in Wheeling, West Virginia.

Prof. J. W. Stilwell, one of our old teachers, is now a resident of Elwood.

The outlook for a copious crop of wheat and clover is very flattering.

Miss Lizzie Tobroke, of Freetown visited in D. M. Hays' family Friday.

Charley Enochs, of Honeytown, moved on the Persinger farm last week.

Orrell Wheeler, the obliging huckster, enjoyed a nice trade last Thursday.

A jollification was had at the residence of John Kernan the evening before he moved.

John McNiece and wife have adjusted their differences and now live together.

Miller & Hays, of the Ewing livery stable, purchased a fine lot of hay of Henry Lucas last week.

While at Houston last Friday the writer was cleverly entertained by Richard Pruitt and family.

Harvey Lucas has his part of the gravel road in fine condition. He does the work at the right time.

Richard McNiece is hale and hearty at the ripe age of 80 and is one of our wealthy and successful farmers.

The people are ready to vote on the proposed gravel roads as soon as the commissioners will give them a chance.

Our old school building has almost collapsed. It was built in 1860 and is to be repaired by a new one the coming summer.

Eli W. Miller, of Ewing, was 55 the 8th inst. when his family prepared a dinner which was enjoyed by a host of relatives and friends.

It is reported that Dixon M. Hays will head a movement for a postoffice at Pleasant Grove. This would be a great convenience to those who now drive five and eight miles for their mail.

Rev. J. L. Shroyer and Frank Reynolds have resolved that an old debt on the Honeytown M. E. church shall be lifted and we are glad to say the amount was almost all subscribed last week.

Correspondence Can Now Begin.

J. K. Tinder a few days ago found a bottle on Indian creek, in which was the following telegram.

March 5, 1897.

On train No. 2 P. C. C. & St. L. Behind a washout.

The lady that finds this note will be my wife when we meet. Write

J. W. MITER

No. 2 Schem St.

Pittsburg, Pa.

The Pittsburg gentleman has waited long for the correspondence to begin but since the bottled message was found by a man and given to the public, he will doubtless have numerous letters in short order and will have a chance to make a selection.

Convalescing

is more or less a very slow process, according to the severity of the sickness. Vitality, when at a low ebb, works at a great disadvantage, and more time is required to regain the lost strength and power.

Pabst Malt Extract The Best Tonic

produces marvelous results in such cases. The richness of the malt gives life to the blood and the hop principle gives tone to the stomach—creating both a desire for food and the ability to digest it.

It was ruining my health, my comfort and my complexion, and I am glad to say that Celery King has restored all three, and this after trying many other medicines that were supposed to be good, but which were of no value whatever. I would like to tell every suffering woman what Celery King has done for me.—Nellie Gould, Medina, Ohio.

Celery King cures diseases of the Nerves, Stomach, Liver and Kidneys. Sold by druggists, 25 and 50c.

Mrs. F. H. Clark is able to be up part of the time.

I have been afflicted with Rheumatism for fourteen years and nothing seemed to give relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.

GERMAN MILITARY SERVICE.

A Curious Method by Which It May Be Avoided.

Anybody can emigrate from Germany before he is 17 years old without running the risk, in case he should return, of being forced to join the army, but he will be allowed to remain only nine months in Germany. If he stays longer he becomes again a German citizen and must do military service. If he leaves when he has been a little less than nine months in the country and stays away for two or three weeks he can return without running any danger and can stay another nine months. If he does this every nine months he can live as long as he likes in Germany.

As soon as a man is 17 years old he cannot leave Germany without serving in the army. He can, however, get permission to leave the country until he is 20 years old if somebody is willing to give bond that he will return and serve his term.

In case a man forfeits his bond he cannot return to his fatherland before he is 45 years old, as he would be promptly arrested and sentenced to serve a longer term than the original one. After a man is 45 years old he can go back to Germany without being punished and live there as long as he likes.

In case a deserter is caught in Germany before he is 45 years old he is sentenced to two or three years' imprisonment in a fortress and all his personal property is confiscated.—New York Herald.

Proof Positive.

His Honor—What's the charge, officer? Drunk?

Officer—No, sir—crazy.

His Honor—How do you know?

Officer—Well, sir, he is a proprietor of a daily paper, and I heard him tell a man that the paper probably had the smallest circulation in the city, and so—

His Honor—The padded cell—quick!—Harlem Life.

Legal Repartee.

"Gentlemen of the jury," said the pompous lawyer, assuming his most imposing mien, "I once sat upon the judge's bench in Iowa."

"Where was the judge?" quickly inquired the opposing attorney, and the pompous gentleman found the thread of his argument hopelessly entangled.—Detroit Free Press.

Red lips that dumbly quiver for his kiss And now but fondly touch his graveyard stone— Ah, lips he loved of old, remember this, He had not died if he had only known!—Arthur J. Stringer in Harper's Magazine.

A STROKE OF GENIUS.

It Elicited the Unbounded Admiration of the Farmer.

Only a few summers ago, among the many others that visited the wild region adorned by one of Michigan's inland lakes, was an artist. He had a wealth of scenery from which to select and chose a picturesque view with a hill of rocks and Jack pines as a background. The owner of the property transferred to canvas did not think much of the enterprise or of the man who would dawdle away his time in such an undertaking, but the artist paid the summer rates without a murmur and never entered any complaints against the accommodations. The next season the painter was again among the guests.

"How did that there picture of yours come out, anyhow?" asked the curious landlord.

"Oh, fairly well. You know that I have my name to make yet. I sold it for \$1,000."

"No," exclaimed the farmer excitedly, "not \$1,000. You're chaffin' me."

"Not a bit of it," laughed the artist. "I got \$1,000 for that little view before there was a frame on it."

"Shake, stranger. I allus thought I was purty slick on a dicker, but I'll be doggone if you don't take the prize. You skinned that feller slick and clean."

"How so?" indignantly, for his pride was touched.

"Oh, don't play innocent with me. It won't go no further. But you done him brown. A thousand for that spot where you couldn't raise a bean to the acre! If the critter that bought that picture had seen me, I'd a sold him the hull durn farm for \$275."—Detroit Free Press.

In the Tap Root of an Oak.

I remember a curious incident connected with the tap root of an oak. This oak, a good tree of perhaps 300 years' growth, was being felled at Bradenham wood when the woodmen called attention to something peculiar on the tap root. On clearing this of soil we found that the object was a horse-shoe of ancient make. Obviously in the beginning an acorn must have fallen into the hollow of this cast shoe, and as it grew through the slow generations the root filled up the circle, carrying it down into the earth in the process of its increase till at length we found wood and iron thus strangely wedded. That tap root with the shoe about it is now or used to be a paper-weight in the vestibule of Bradenham Hall.—Rider Haggard in Longman's Magazine.

Pure Water a Poison.

By "chemically pure water" we usually understand perfectly fresh, distilled water. Distilled water is a dangerous protoplasmic poison. The same poisonous effects must occur whenever distilled water is drunk. The sense of taste is the first to protest against the use of this substance. A mouthful of distilled water, taken by inadvertence, will be spit out regularly. The local poisonous effect of distilled water makes itself known by all the symptoms of a catarrh of the stomach on a small scale. The harmfulness of the process, so much resorted to today, of washing out the stomach with distilled water is acknowledged.—National Druggist.

Official Lampposts.

The placing of lampposts in front of the houses of the chief magistrates of towns is an ancient custom. We find in Heywood's "English Traveler" that posts were so placed in front of sheriffs' houses. Reginald says

What brave carved post! Who knows but here In time, sir, you may keep your shrievalty And be one o' the sheriffs!

From sheriffs, the practice extended to the houses of mayors and provosts. It has been suggested, with some probability, that the posts were at first intended for the affixing of proclamations which it was the duty of the sheriffs to publish.

A Forgetful Spouse.

Mrs. Bilkins—I never saw such a forgetful man in my life as you are. The clock has stopped again.

Mr. Bilkins—That's because you forgot to wind it.

Mrs. Bilkins—You know very well, Mr. Bilkins, that I told you to remind me to wind it, and you forget about it.—New York Weekly.

Her Mistake.

"How did it happen that Miss Singleton refused to marry the young clergyman?"

"Why, when he proposed to her she, being a little deaf, thought he was asking her to subscribe to the organ fund. So she told him she had promised her money to some other mission."—Harper's Bazar.

Proud of His Descent.

O'Brien—And so Phelim is proud of his descent, is he?

McTurk—Yes, he is terribly stuck up about it.

O'Brien—Well, begorra, O'Brien is a bit of a descent himself to boast about. Oi desecrated four stories wanst when the ladder broke and niver shan't a brick.—Answers.

Not Yet.

"Are you related to each other?" inquired the probate judge at Oklahoma City of a German bridal couple bearing the same name. And the groom replied: "Nein. Das is vat's do matter. Ve wants to be alretty."—Kansas City Journal.

Nerves on Edge

Could not Concentrate my Thoughts; Could not Sleep an Hour at a Time Without Waking; Was Almost Distracted. After Years of Suffering I was Cured by Dr. Miles' Nervine.

When the nervous system is so run down and worn out that sleep refuses to come to its relief, the life forces are rapidly consumed and both physical and mental faculties soon lose all power of recuperation. Nerve force is necessary to run the human machine and must be supplied from some source as it breaks down. Dr. Miles' Restorative Nervine nourishes those organs that are most in want. It soothes the irritated nerves, brings rest and refreshing sleep to the tired brain, and cures nervous disorders of every kind. The following letter will be interesting reading for those who are suffering from nervous troubles.

"For a number of years I suffered severely from nervous prostration, I could not concentrate my thoughts, and was unable to confine myself to any one thing. For years I could not direct the affairs of my own household, and could have no care whatever. There was not a night in all that time that I slept over one hour without waking; and when I would awake my nerves would be so un-

strung and feel as if they were on edge. My stomach was very weak, and I suffered greatly from severe headaches. We spent several hundred dollars with doctors and for various proprietary medicines, but it was of no use. After having been taken to Chicago, and having been treated by some eminent specialist, from whom I received no benefit whatever, I became almost distracted. I saw an advertisement of Dr. Miles' Restorative Nervine, and I procured a bottle and used it according to directions. Its effect on me was marvelous. The very first night I slept soundly, and awoke in the morning feeling rested. I continued taking the medicine until my health was fully recovered, and although I am past seventy-seven years of age I am doing my own work. The sleepless nights, the worry and tired feeling are now a thing of the past and I feel many years younger.

MRS. W. A. THOMPSON, Columbus, Wis.

Read what Capt. J. W. Wood, of

steamer "Governor Safford," whose home is in Brunswick, Ga., says of this great medicine: "It affords me great pleasure to recommend Dr. Miles' Nervine, because I have tested it and know its worth. Overwork and loss of sleep brought on attacks of extreme nervousness and irritability which rendered me unfit to attend to business, and from which I could find no relief. A friend recommended me to try Dr. Miles' Nervine, and I began using it at once. I obtained benefit from the first bottle and in a few weeks I was restored to my usual good health."

Sample Treatment Free.

A trial package of Dr. Miles' favorite treatment for the grip, consisting of Dr. Miles' Restorative Nervine, Dr. Miles' Anti-Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting the samples and mentioning the name of this paper. An Imposition.
It is an imposition on the public that manufacturers
should be allowed to put alum into baking powder without
saying so on the label.
The so-called "cheap" baking powders are made of
alum. They have to be or they could not be offered at
the price. But they are not sold as alum powders. If they
were housekeepers would not buy them at all.
Cleveland's baking powder is made of pure cream of
tartar. All the ingredients are published on the label.

DIED.

leaves a husband and children and a
number of relatives who have the ten-
der sympathy of a host of friends.

Grain-O Brings Relief.
to the coffee drinker. Coffee drinking
is a habit that is universally indulged
in and almost as universally injurious.
Have you tried Grain-O? It is almost
like coffee but the effects are just the
opposite. Coffee upsets the stomach,
ruins the digestion, effects the heart
and disturbs the whole nervous sys-
tem. Grain-O tones up the stomach,
aids digestion and strengthens the
nerves. There is nothing but nour-
ishment in Grain-O. It can't be other-
wise. 15 and 25c. per package.
